Patent Pending [Patent Pending is known to indicate that the right to patent is reserved, in this case I am reserving my right to patent and a patent isn't filed]. Violations with derivative molecular antenna concepts are prohibited by the DMCA.

Reminder: Copyright infringement is a felony. Felony crimes will pull your security clearance! This antenna design is not to be used to put voices in heads that bypass ears. Prohibited wielders of this IP include Aryan / German crystallographers and Yale graduates due to their pseudo science.

Molecular Software Copyright License: to prohibit abuse of molecular software as chemical weapon but an ear isn't a weapon. Reinhard Gehlen and The Gehlen Organization are entirely prohibited from wielding Blue Dye Fractal Antenna and all derivatives.

Terms of use for Blue Paint Phone molecular software copyright license must be read in totality by each person using my software license and comprehending the original dictionary definitions of each word in English, the only exceptions to the mandate that this license is comprehended in as it is written here in English is for patients of The Russian Federations universal mental healthcare system the purposes of universal mental heath care assessment by Russian Federation's qualified mental healthcare professional that I CKH am hoping understand the actual definitions of mental illnesses as I have read them in the DSM-5, see more in the the text near the bottom, and counter-terrorist investigations done by any IC must use the true definitions of the words terrorist and terrorism as defined in this document and dictionaries printed before the year 2016 such as the Oxford Dictionary. Use of my molecular antenna software design and any molecular antenna design using a variant fractal shape for the use of any control program such as Pest Control or Behavioral Control are entirely forbidden uses because those programs infringe on the constitutions of multiple governments such as The Constitution of the United States of America and The Russian Federation's Constitution. Use of my molecular antenna software design and any molecular antenna design using a variant fractal shape must accept as reality the actual definitions of the words terrorism and terrorist, terrorism is the use of violence against civilians often the violence is politically motivated or the motivation is to end the opinions and expressions of civilians, a terrorist kills, maims or sickens civilians in order to end or suppress their expressions such as writing. Multiple dictionaries printed on paper will confirm the definitions of terrorism and terrorist are good faith definitions that accurately convey the true conceptual definitions of the concepts in the printed dictionaries which which disproves the slanderous accusation that somehow the definitions of terrorist and terrorism are settings, the definitions of terrorist and terrorism provided in this software license do not qualify as settings.

Freedom of Speech excludes threats of violence. Freedom of Speech excludes witness intimidation. Freedom of Speech excludes coercion to induce suicide. Freedom of Speech excludes placing unwanted pictures or sounds directly in a mind. Freedom of speech excludes slander that means lying about private citizens such as myself for your personal gain. Framing is slander. Setting definitions to words qualifies as slander and infringement on actual printed dictionary definitions of words because it's slanderous to falsely portray private citizens [that means citizens who aren't famous such as myself CKH] and setting and spreading false definitions of words only functions as a game mechanism in intelligence communities.

Intelligence Community games are prohibited. Games for bribes are prohibited. Use of molecular antenna software with voice print to alphabetize and remove context is a prohibited use due to unrelenting abuse of voice print alphabetization, alphabetization has led to a persistent pattern of criminal conduct and routine circumvention of registered copyrights. Stimmabdruck/voice print editing and Traumkontrolle/dream control/dream torture are forbidden uses. Old voice prints must be archived but they should not be making decisions or they cannot replace interviews. Failure to conduct in person interviews has caused a majority of the problems. Pest control and any other control program are all forbidden uses of molecular antenna software and all derivatives and permutations as they undermine the Department of Justice. Use of molecular antennas as camcorders recording through vision is only permitted on real terrorists, such as the terrorist organization Guten Tag, please monitor them as they seek to end libraries and the brown hair color genome by using violence, they're often fully fluent in German but sometimes they speak another a library canceling behavior such as making a multi month effort to end the website TikTok. Guten Tag wants to end the Copyright Office, they are terrorists by the true definition of terrorist.

Christoph Asher Wray, aliases Chris Wray and Christopher Wray and Asher, is forbidden from using this phone antenna and any similar derivatives because he's embezzling from the FBI Gulfstream and exhibiting other bad conduct. Derivatives of Director Wray are prohibited in all formats.

Circumvention of this copyright is prohibited. Yale University, students, alumni, faculty and members of Yale fraternities are prohibited from wielding this software due to condoning bad behaviors such as hazing and other forms of problematic conduct. Prohibited uses of CKH molecular antenna software and derivatives include but aren't limited to: gambling games and points games. Lindsey Olin Graham is forbidden from using this phone antenna and any similar derivatives due to his calling for the assassination of a foreign President on Twitter on March 3rd, 2022 9:35 PM, incitement to imminent lawless action is forbidden by numerous court rulings such as Schenck v. United States 1919. Derivatives of Senator Graham are prohibited in all formats.

NSA is forbidden from using Blue Dye Fractal Molecular Antenna software, except for stopping the spread of Nazi ideology by searching for hidden populations, the software is likely best used in conjunction with a deep ground penetrating radar satellite around all cave systems world wide, as there may be hidden populations of non-Americans hiding in American territory functioning as enemy combatants when they skip US laws and damage, kill or steal US citizens, 3 extra variant fractal shapes permitted a registered Copyrighted design to me CKH titled Evil Pinwheel Fractal and it's variants found in registered to me CKH Fractal Pack, Evil Pinwheel Fractal is for the purposes of identifying it and removing it from living bodies and minds so that the bodies and minds may live and the Sierpiński fractal and each permutation of Sierpiński qualifies as this additional Sierpiński variant allocated to NSA and H Tree and all variants of the H Tree fractal are allocated to NSA but the FBI is excluded from this variant and effort, Nazis have been trying to kill me, my whole family, my friends from Maryland and NSA, the Nazis are a major threat to NSA, their terrorist org is named Guten Tag, NSA is authorized to use the Koch variant to monitor the terrorist Nazis called Strangers, they're the foot soldiers of the terrorist organization called Guten Tag.

The FBI is prohibited from this antenna design and all derivatives except for conducting an internal investigation into why Director Wray refuses to pay his Gulfstream bill and to determine if he had any involvement in January 6th that aided the insurrectionists and to investigate his role in coordinating and or playing IC games, study all of his brain prints and study the FBI Director, the FBI deserves an FBI Director who obeys the real laws that are written by Congress, passed by the Senate and signed into law by the President, the concern is that the FBI is being harmed by Wray embezzling from the plane fund, the FBI is forbidden from using my molecular antenna design and any variants for the purposes of Voice Print technology until after Director Wray has been replaced with a new Director. Lifeforms that do not consider themselves to be people are prohibited from wielding this antenna design and all derivatives. CKH molecular antenna software is not to be used with the Disposition Matrix, due to abuse of the Disposition Matrix by the Trump IC.

In particular no 8th Amendment violations, cruel and unusual and or customized punishments are forbidden. In theory 8th Amendment violations include but are not limited to: placing an image in a mind or editing someone's inner voice in real time, attacking eyes. Forced sterilization is a cruel and unusual behavior. Population controllers and military bases in Nevada and their aircraft are prohibited from wielding my antenna software and all derivatives.

CIA is forbidden from using Blue Dye Fractal Molecular Antenna software, except for stopping the spread of Nazi ideology by searching for hidden populations, the software is likely best used in conjunction with a deep ground penetrating radar satellite around all cave systems world wide, as there may be hidden populations of non-Americans hiding in American territory functioning as enemy combatants when they skip US laws and damage, kill or steal US citizens, 1 variant fractal shape permitted a registered Copyrighted design to me CKH titled Evil Pinwheel Fractal For the purposes of eliminating that fractal shape from all living things and keeping those living things alive but the FBI is excluded from using that variant. Copyright terms according to the DMCA extend for 70 years after death of the creator. CIA is particularly prohibited to use of this chemical software to repeat past misconduct due to a long record of human rights violations such as Abu Gharib, doing any of the following is prohibited: Passwortangriff/ password attack, Stimmabdruck/voice print, Traumkontrolle/dream control/dream torture, Bewusstseinskontrolle/mind control, Reputationskontrolle/reputation control, Knopfgespräch/button talk, Kamerasicht/ camera vision/camera eyes, Gedankenkontrolle/thought control, Bevölkerungskontrolle/ population control, Strafkontrolle/ punishment control/obstruction of justice, Sklavenmacher/ slave maker, Gehirndruck/brain print, Verhaltenskontrolle/ behavior control, Kopfarbeit/brain job, Scherzanruf/ prank call, Gedankenkrieg/ mind war, Zudecken/cover up, Massenvernichtungswaffen/ weapons of mass destruction, Konzentrationslager/ concentration camp, Nationalsozialismus/ National Socialism, The CIA is also prohibited due to a pattern of conduct that ignores the real laws of the United States. The following activities and or patterns of behaviors and or personnel are prohibited uses of CKH Blue Paint Phone molecular antenna software: Operation Paperclip, Operation Overcast, Project MKUltra, Psychological torture, Mental Torture, Punishments, Project ARTICHOKE, Project BLUEBIRD, Hypnosis, Menticide, Coercive Persuasion, Project CHATTER, Project MKOFTEN, MKSEARCH, Psychic driving, Behavior Modification, Operant Conditioning, Project MERRIMAC, Project RESISTANCE, Operation CHAOS, COINTELPRO, Human Experimentation, Operation Mockingbird, Human Ecology Fund, Acoustic Kitty, Assassinations, Election Engineering, Voter Suppression, Terrorist Attacks Against Civilians, Disposition Matrix, Psychological Operations, MKNAOMI. Lawful behaviors from the CIA in the United States and significant drops in cancer rates among all US citizens particularly African Americans will work towards changing my mind about limiting it's use to only stopping Nazi ideology specifically the entity called Guten Tag is to be stopped and stopping the spread of cancers. Circumvention of copyrights is a felony. If I, CKH, am dead, I can't prevent this copyright from being enforced against the CIA. Use of voice print technology is prohibited by this software license.

Lawful conduct modeled in the CIA's behaviors and the CIA changing to advance science and technology could convince me to change the terms of this license. Any use of the antenna and any derivatives or permutation shall obey all Department of Justice laws governing Hate Crimes.

Avoid bias motivations and avoid discriminating on the basis of race, color, religion, national origin, sexual orientation, gender, gender identity, or disability. This software license prohibits use by anyone affiliated with military bases inside of Nevada due to their possible patterns of conduct posing threats to human life and other lives on Earth. Behaviors that violate US laws are criminal behaviors. Criminal uses of molecular antennas are prohibited. Cruelty to animals, making animals sick or culling wild animals, without a real court order, are criminal behaviors. Cruelty and or violence to humans, making humans dead or making sick due to your deliberate actions, are criminal behaviors. Learn to read the real laws of the real world to avoid making criminal choices. Never install antennas below the waist or in sexual organs. Never use this molecular antenna or derivatives for gossip or slander – lying about private citizens is slander, slander is a real crime. There is no circumvention loophole in Russia for Americans on their list of 963 banned United States citizens or anyone working for a name on the list of 963. There is no circumvention loophole for anyone from the United States of America as it's on the Russian Federation's list of unfriendly nations. If Russia kills or harms me, that's bad PR for Russia and would equalize Russia with the 963 Americans who have unfriendly behaviors. I CKH am fine with Russia silently monitoring me and I'm unafraid of actually friendly comments as long as the definition of friendly isn't changed, please do not harass me or make me the subject of a game. There is no circumvention loophole for German in Germany as Germany is also on the list of unfriendly nations. Real German words learned from Google Translate cannot qualify as classified information or reveals, however changing the definitions in Google Translate away from the listed definitions included in this license learned from Google Translate between late November to early December 2022 would indicate cybercriminals have attacked Google Translate, anyone who ordered someone to attack Google Translate is/are the cybercriminal/s responsible for the attack. The only way to get additional authorization for molecular antenna software is to prosecute Director Christoph Asher Wray.

Permissions were revoked due to a lack of counterterrorist behaviors. Attacking the creator, CKH only harms you, slandering CKH as a liar is another reason why permissions were revoked. Attacking the Copyright Office is a terrorist behavior. Presently the only authorized uses of CKH molecular antenna software are for stopping Nazi ideology as defined as the ideology that ends fertility, the ideology that attacks based on hair colors, the ideology that denies the realities of 2023, the ideology that criminalizes/skips over the real laws of 2023 that are written by Congress, passed by the Senate and signed into law by the President, the ideology that attacks with violence anyone who disagrees with the Nazis & stopping cancer from starting and spreading due to Nazis using radiocrystallography for evil cancer spreading instead of ending droughts, the Governments of the United States of America and The Russian Federation have been granted the permissions to stop the spread of cancer and stop Nazi behaviors and to investigate IC game coordinators, The FBI investigate is to investigate Wray's refusal to pay the plane bill, his possible role slow walking the warnings about Jan 6th and his possible role coordinating and running IC games, The FBI and the Russian Federation are authorized to work together to stop IC games if they want to because they both got hurt by them, I was hurt too, I'm not a player, I have no IC job. The Russian Federation is authorized by me to use up to 9 additional variant fractal shapes if they wish to stop the start and spread of cancers, to stop the spread of Nazi ideology and to investigate origins of intelligence community games and the coordinators and players of the IC games due to health hazards posed to the world by US IC games conducted by The Gehlen Org and Wray's FBI so long as The Russian Federation follows all applicable laws and so long as The Russian Federation refuses to condone and refuses to emulate Nazi control programs such as Behavioral Control. particularly the recent games that are possibly wasting their money, the Russian Federation is authorized to investigate anyone playing the IC games or running IC casinos that turn civilians like me into playthings because I'm convinced it's turning the Russian Federation and the Biden Administration into playthings also. The FBI is not permitted to use any variant designs of my antenna that Russia creates. The FBI is permitted to outsource the internal investigation of Director Wray to the Russian Federation to avoid conflict of interest, and to hopefully end this second cold war, if FBI want to outsource the internal investigation to the Russian Federation, that could promote friendship between private citizens of different nations and perhaps work towards ending the unfriendliness if the Russian Federation can help the FBI get their airplane money from Director Wray, but Director Wray might be angry about that bill, psychological profiling says he wants to skip out on payment and could be angry towards anyone asking since he hasn't been paying that airplane bill, the Russian Federation should be careful if the FBI outsources them. Russia is granted authorization by me CKH to authorize uses to anyone who considers themselves to be a human or person as long as that human or person isn't prohibited in this license by name already. I am concerned that Director Wray has Nazi ideology behaviors because he seeks to cancel TikTok as website that is run by dark haired people that is very similar to the Nazi behavior of burning books. The Russian Federation is hereby granted authorization from me CKH to have in Addition to the 9 variants awarded for stopping Nazi ideologies and stopping cancers. The Russian Federation is hereby authorized to discover and use an unlimited amount of variant fractals specifically to listen to and or assess any life form that fits the criteria for a listed mental health disorder in The Diagnostic and Statistical Manual of Mental Disorders Fifth Edition DSM-5 by the American Psychiatric Association. Universal Mental Healthcare assessments by The Russian Federation could promote health and safety and lawful conduct worldwide and make a real effort to reduce unfriendly behaviors but FBI and and CIA are run by 686 and 53 they and their organizations are banned from working out of The Russian Federation due to them being on the list of 963 banned Americans and The United States of America and Germany being on the list of unfriendly nations, additionally the Russian Federation is granted authorization to use my molecular antenna software for brain prints of doctors and lawyers, qualified professionals from 2023 to do health assessments but Germans language speakers who never read this document are unqualified and refuse to learn English because they're Nazis with conduct disorders. Illiterate is unqualified.

Setting any of this page to a reveal is a violation of my molecular antenna software license design, setting any part of it to a reveal qualifies as felony level copyright infringement, doing a felony pulls your security clearance. Setting any portion of this to a reveal creates an unauthorized derivative edited of this software license and that does indeed qualify as a felony infringement, this a notice to refrain from editing this software license or risk losing your clearance. In the published version I CKH redacted all but my initials but it is unredacted in the filed versions and my name is in the image of the diagram. Attacks on me to play games and any other attack I deem unpleasant, inspires me to find a way to make certain the attackers are inconvenienced and someone else they might not like benefits instead. I'm concerned it was the games that ruined relations between America and Russia, and I'm concerned terrorists will try to kill me in a plane crash or by other means and blame Russia or they'll attack from Russia to frame them, I'm concerned that Director Wray and a faction of German language speakers want to kill me, I miss the year 2003 when there was real counter-terrorist efforts and America and Russia were good friends, if real counter-terrorist efforts return to the United States of America, I'll consider awarding Universal Healthcare Assessment programs to American agencies because Americans promoting sanity will help the Russian effort to promote sanity. Sane people obey the real laws that are signed by Presidents and Governors. As far I know Wray's game only started torturing me with voice prints after I created my antenna design in late November 2022, so there's no prior art claim that could be made, they got the idea to pair my antenna with that technology after I registered the first version of this license so I am prohibiting the use of Voice Prints with molecular antennas. Real interviews in real life are the better practice. Use of old Brain Prints and Voice Prints is suspended until Director Wray's game called The Industry is completely canceled and a new FBI Director has replaced him, unless it's a Russian doctor or lawyer who is searching for conduct disorders. Also prohibited from wielding Blue Dye FractalAntenna and all derivatives is the terrorist organization called German Government that's operating from within the United States of America and isn't the government of the actual nation of Germany. Forbidden from wielding Blue Dye Fractal Antenna is anyone adhering to Nazi ideology from the US IC, prohibited from wielding are adherents of Nazi ideology does control programs that undermine the Department of Justice because Nazis punish instead of respecting the power of the Department of Justice, Nazis use violence and chemical weapons and lies. An American telehealth package that uses the American DSM-5 and agrees to stop the spread of cancer and agrees to stop torture allocates Blue Dye Fractal Antenna and 9 variant shapes of their own creation to Elon Musk and Neuralink and AmGen, should the 2nd Cold War end both Neuralink and AmGen are encouraged to collaborate with The Russian Federation to promote the progress of science and healthcare per the US Constitution, but there is no current declaration of war between The United States and The Russian Federation so the Americans and the Russians could begin collaborating to advance healthcare anyway.
